WITH MIMAKI GENUINE DTF PRINTER

TEXTILE & APPAREL

Mimaki

SUSTAINABLE AND RELIABLE PRODUCTION

The TxF150-75 combines the outstanding reliability and print quality of Mimaki's best-selling 150 series with the simplicity of the direct-to-film (DTF) process.

This system offers the first branded solution for the decoration of apparel, sportswear, t-shirts, bags and more with the most demanding graphic details using the printing technique directly on the film.

■ **RELIABLE**

- Packed with market-proven Mimaki technologies.
- Innovative functions such as nozzle control system and white ink circulation for stable and long-term production without interference and with minimum maintenance.

■ **SUSTAINABLE**

- ECO PASSPORT by OEKO-TEX certification for Mimaki DTF ink PHT50 in combination with reusable ECO-cases completes the overall sustainable package of the TxF150 printer.

■ **EASY TO USE**

- The TxF150 includes Mimaki's powerful RasterLink 7 RIP software, for an extremely easy way to produce professional quality prints with just a few key-strokes.

DTF PROCESS
